

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

1. (Withdrawn) A method of printing images for use in an authentication document from a plurality of different printers, each of said plurality of different printers having a unique ID, comprising the steps of:
allocating a unique ID to each of said plurality of different printers;
and
printing said image with said unique ID printed thereon by said printer.

2. (Withdrawn) A method according to claim 1 wherein said authentication document is a passport.

3. (Withdrawn) A method according to claim 1 wherein said authentication document is a driver's license.

4. (Withdrawn) A method according to claim 1 wherein said authentication document is a commercially issued document.

5. (Withdrawn) A method according to claim 1 wherein said image has a unique individual ID associated therewith, said printer printing said unique individual ID within said image such that it is not visible under normal viewing conditions.

6. (Withdrawn) A method of printing an image for use on an authentication document wherein said image is captured by one of a plurality of different cameras, each of said cameras having an unique ID comprising the steps of:

capturing said image with one of said cameras; and
forwarding said image to a printer for printing of said image and said unique ID of said camera which captured said image, said unique ID being

printed in a manner such that unique ID is not visible under normal viewing conditions.

7. (Withdrawn) A method according to claim 6 wherein said image is associated with a unique individual ID, said unique ID being printed within said image and is such that unique individual ID cannot be viewed under normal viewing conditions.

8. (Withdrawn) A method of printing an authentication document, comprising the steps of:
capturing an image with a camera having a unique ID, printing said image on a media such that said image is visible; and
printing said unique ID on said media with an ink that is invisible under normal viewing conditions within said image.

9. (Withdrawn) An authentication document comprising;
an image associated with the holder of said authentication document;
a first indicia placed in said image which is not visible under normal viewing conditions, said first indicia comprising a unique ID associated with the device used to print said image; and
a second indicia comprising the unique ID associated with said image; and
a third indicia comprising a unique ID associated with a printer used to print said image.

10. (Currently Amended) A method of verifying that the presenter of an authentication document is the same individual holder associated with said authentication document, comprising the steps of providing an image of said holder on said authentication document, said image including a first indicia which is not visible under normal viewing conditions, said first indicia comprising a first unique ID ~~asseeiate~~ associated with the holder of said authentication document and an image of said holder stored at a database located at a storage center;

a second indicia which is invisible under normal viewing conditions, said second indicia comprising a second unique ID associated with the capture device used to capture said image of said holder and the location or printer used to produce said document, said second unique ID also being stored at said database;

C2 scanning said ~~image~~ document at a first location remote from said storage location so as to obtain said first and second unique ~~capture~~ ID, and said image, wherein said information obtained by scanning of said image is sent to [[a]] said storage remote location whereby said information relating to said first and second IDs are compared with information accessed from a ~~known~~ said database at said ~~second remote~~ storage location for confirming ~~that the identity of~~ the capture device and printing device or location that was used for producing said document ~~at said designated location or device;~~ and for comparing the image on the document and an image of the presenter ~~is viewed as obtained~~ by a camera at said remote location ~~are compared with information obtained from said database to confirm that the individual presenting the document and associated with said first unique ID~~ the stored image at said database associated with said first unique ID.

12. (Cancelled)

13. (Cancelled)

14. (Withdrawn) A method of printing an authentication document from a plurality of different locations, each location having a unique ID associate therewith, comprising the steps of:

allocating a unique ID to each of said locations; and

printing an authentication document at said location which includes said unique ID printed thereon in a manner such that it is not normally visible under normal viewing conditions.

15. (Withdrawn) An authentication document comprising a first image thereon, said image having an indicia which is not visible under normal viewing conditions, said indicia capable of confirming the appropriate person to which to said document has been issued.

16. (Cancelled)

17. (Cancelled).

18. (Cancelled).

19. (Cancelled).

20. (Cancelled).

21. (Withdrawn) A method of printing an authentication document, comprising the steps of:

- capturing an image with a capture device having a unique ID,
- recording the date and time the image was captured,
- forwarding the captured image and date to a storage location,
- storing the image and recorded date in memory at said storage location,
- assigning a unique ID to the image,
- forwarding the image to a remote location with respect to said storage location for printing,
- printing the image on a time sensitive authentication document.

22. (Withdrawn) A method according to claim 21 wherein said authentication document is a driver's license.

23. (Withdrawn) A method according to claim 21 wherein
said authentication document is a passport.

24. (Withdrawn) A method according to claim 21 wherein
said authentication document is a national identification card.
